

TIME, OUR MOST VALUABLE NATURAL
RESOURCE

SEGWAY®

Time, is an elusive subject,
we live our lives around it
and seek to ponder it.

It is our most valuable
resource. We all strive to
find more time; save time;
and try to better manage it.

If we could we would turn
back the hands of time and
wish for more time.

It is really up to us to make best use of our 24 hrs as we are all under the same “punch clock”

VICTORY KISS

"Since the invention of the kiss, there have only been five kisses that were rated the most passionate, the most pure. This one led them all behind!"
(The Princess Bride)

In the commercial world,
time has a value, a cost, no
matter what country you
leave in.

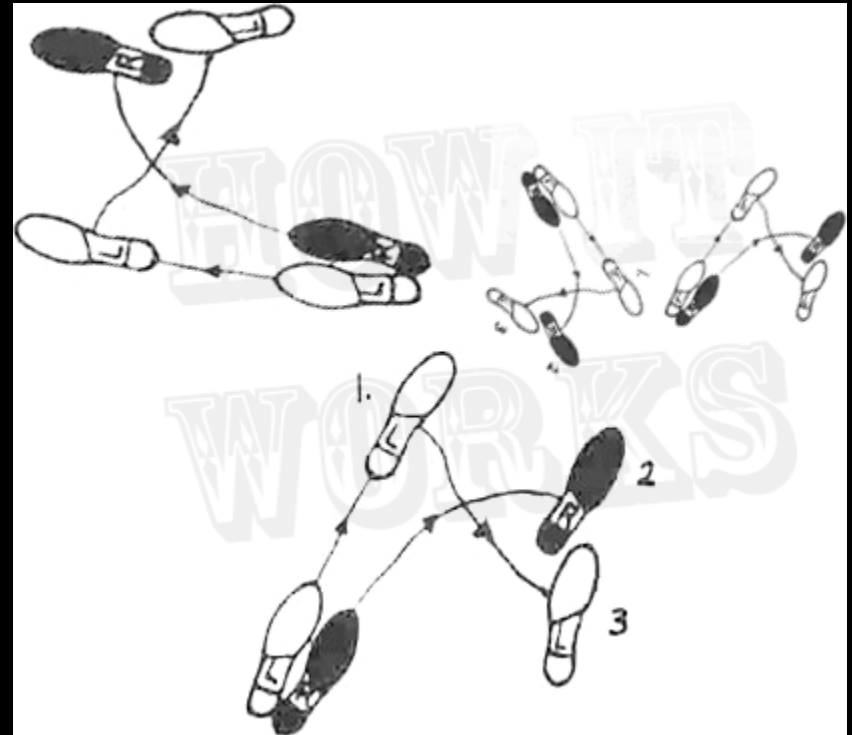

Time is a commodity that
some companies manage
better than others.

The human
comfort zone is a
mere 15 minutes

An employee that walks from point A to B has a cost associated to it.

Crimes & Vandalisms have a value.

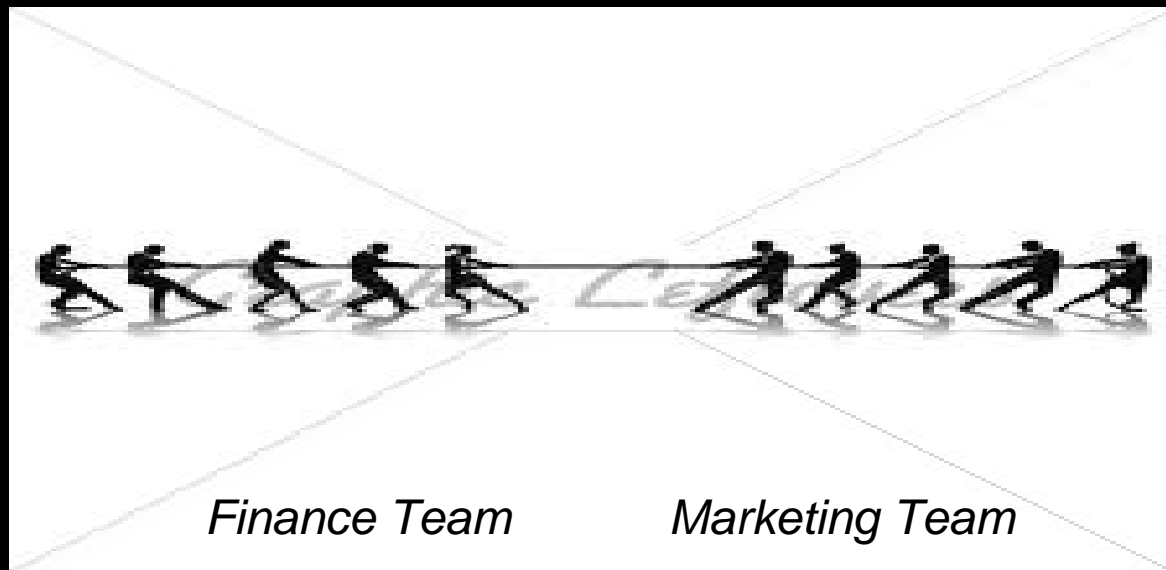

...and where there is cost
there is plan for cutting It
A hope to be more
efficient while preserving
quality.

What are you doing to save time?

Cutting cost is a constant
struggle between;
profitability and deliver
quality product.

Finance Team

Marketing Team

100% of shopping malls in Portugal are using Segway PT for security patrolling.

*4th Lowest GDP of Euro zone

At Segway we are optimizing your staff's productivity. They accomplish more and carry more with a Segway PT. Not only will your workforce travel with comfort, ease, and unparalleled maneuverability, they will be saving time.

It's all about optimizing your efficiency

LARGE OR SMALL FACILITY

CAMPUS ENVIRONMENT (MULTI BUILDING)

PARKING LOTS/ GARAGES

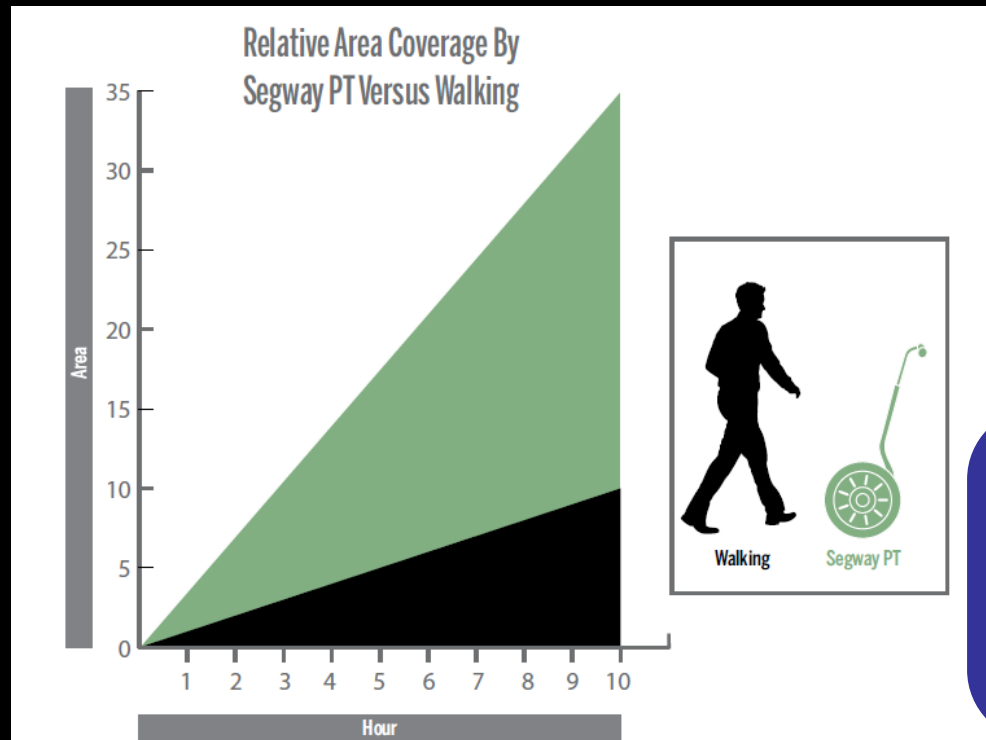

AIRPORT/ TRANSPORTATION HUBS

PUBLIC EVENTS CENTERS

PARK/OUTDOOR PUBLIC VENUE

For every minute spent on a Segway PT, 10 minutes can be earned

Prevent Crime and Vandalism

PATROL

The Segway PT is a truly unique addition to a police or security force's transportation arsenal. It enables officers to do more, see more and connect more with the communities they are protecting - all with significantly less cost, fuel, fatigue, and response time than traditional patrolling solutions.

KEY USES:

- Community policing
- Facility and campus security
- Large event support
- Surveillance

More than 1,400
installments

It can be an Incremental revenue stream

The unique features and design of the Segway PT make it an optimal transportation device for touring local attractions. Guided tours, at your hotel facilities offer unique ways to experience tourist locations and other points of interest.

“Our business
has increased steadily
since we started
with Segway”

Disney

How does it work?

To move forward or backward on the Segway PT, the rider just leans slightly forward or backward. To turn left or right, the rider simply moves the LeanSteer frame left or right

The Segway PT can take you places that a car or bicycle can't – Indoors, elevators, buss, trains on the Beaches.

Tech Talk

- Range 38 to 42 klm
- Speed Max of 20 klm / hr
- Charging time Full charge < than 6 hours
- Max Charges 1000 times 0-% to 100%
- Payload 120 klg
- Using time 8 hrs shift
- Warranty 3 years on embedded system
- Cost of a full charge .08 Centime
- Carbon foot print 0
- Batteries 2 Lithium

Segway PT is
3 times more efficient
than even the
Highest cost efficiency
scooters.

If the 70,000 Already sold Segway PT's were used during the Last 15 Minutes

- 16,660 kg co2 would have been saved.
- 630,000 minutes saved by companies using Segway VS walking.
- 70,000 more smiles
- Countless questions on “how does this damn thing works”

And so like the orderly wheels of a clock, so are the wheels of a Segway ...

from the second you step on a Segway PT, you can't help but take time to smile, as you marvel at the very invention that - in that moment - has you balanced.

For the time being, all is right in the world and time stands still...for once!

"I'm not motivated entirely by green issues.
But the Segway PT saves me time, which is my most
valuable natural resource"

- Isidore, Londonien Commuter

Thank you for your TIME.
